Marking 25 years of NICE

Looking back over the journey from our humble beginnings in 1999, exploring the impact NICE has had so far, and the changes we're making to ensure we continue to add value to an evolving health and care system.

[Find out more](#)

Implementation and planning

Best practice resources for practitioners and commissioners.

[Quality improvement - using our standards and indicators](#)

Helping you define, improve and measure quality in health, public health and social care.
Alpha testing

[Guidelines and resources for social care](#)

Resources and recommendations for adult and children's social care, with example scenarios to help put them into practice.

[Productivity, planning and cost saving resources](#)

Explore ways to plan, save money and make decisions on the best ways to use resources.

More ways we support you

Useful sources of information and advice for healthcare professionals, patients, parents and carers.

[Advice and information on the use of drugs \(BNF\)](#)

The British National Formulary (BNF) provides information about the selection, prescribing, dispensing and administration of drugs.

[Summaries of evidence and advice on common health topics \(CKS\)](#)

With over 370 topics to choose from, clinical knowledge summaries (CKS) can provide quick answers to clinical questions.

[Making decisions about your care](#)

Our patient decision aids (PDAs) include treatment options available, likely outcomes, benefits, harms and uncertainties.

How NICE makes decisions

We produce evidence-based guidance to support the health and care system, ensure value for money, and provide people with access to the best quality care. When it comes to decision making, we follow a rigorous process to develop our guidance.

[How we develop our guidelines](#)

You could help us develop our guidance

Join us in our mission to improve the quality of health and social care services. Our committees develop and update our guidance.

They meet over several months and their work is vital in forming our recommendations.

Being a committee member puts you at the heart of our work and helps us make sure that our guidance is relevant to the people that matter.
